Carrier Objective

A motivated and adaptable IT graduate with a Bachelor of Technology in Computer Science and Engineering and a solid foundation in web technologies, IT infrastructure, and software development. Equipped with fundamental knowledge of Linux and Windows server environments and understanding of network operations. Seeking to leverage academic achievements and technical skills in a dynamic role, where I can support IT infrastructure, improve system efficiency, and enhance operational stability

Experience

Mobile App Development Intern | Verzeo, Bengaluru, India, (May-Aug,2021)

- Designed a responsive UI for question navigation and answer selection, displaying real-time quiz results based on user responses, with Firebase Firestore integration for secure data collection and analytics.
- Implemented Firebase Authentication for secure sign-up/login, with Google and email/password options, and used shared preferences to store user data locally for seamless offline access and resuming progress.
- Developed expertise in state management and UI optimization in Flutter for responsive and efficient app performance.

Skills

Linux and Windows Servers, ITSM Principles, Network, AWS, Git, GitHub, JavaScript, React JS, HTML, CSS, Tailwind, Dart & Flutter.

Education

Maharishi Markandeshwar University, India, (2018-22)

Bachelor of Technology in Computer Science and Engineering
CGPA-8.06 /10

Narsingdi Govt. College (Narsingdi, Bangladesh) (2015-17)

Higher Secondary School Certificate
GPA-4.25/5.00

Brahmondi K. K. M. Govt. High School (Narsingdi, Bangladesh) (2015)

Secondary School Certificate
GPA-4.72/5.00

Projects

Self project:

Online Grocery Application (Flutter, Dart)

- Grocery Application where user to complete sign up for the first time using shared preferences or Firebase Auth and storing user's data in firebase DB

Team project:**E-commerce website (CSS3, HTML5, JavaScript, Python, Bootstrap)**

- E-commerce web application that can be used for buying and selling goods and services, or transmitting funds or data, over an electronic network.

Conference & Publications

- “Estimating Factors of Agile Software Development Using Fuzzy Logic: A Survey.”
International Conference on Emergent Converging Technologies and Biomedical Systems, ETBS 2022: Emergent Converging Technologies and Biomedical Systems pp 221–235
- “Breast Cancer Prediction Using Machine Learning Classifiers.”
2022 5th International Conference on Advances in Science and Technology (ICAST)

Linguistics Proficiency

Fluent in Bangla, English & Hindi

Present Address

East Badda, Koborstan Road, Badda, Dhaka-1212

Permanent Address

43/2 East Brahmondi, Narsingdi, Narsingdi collage – 1602 Dhaka
